

Most raccoons live in the woods. During the day they like to sleep. At night they look for things to eat.

Raccoons eat many things. They visit gardens. They take eggs from nests. They eat fruit and fish.

Sometimes raccoons put their food in water before eating it. Are they washing their food? Is wet food easier for them to eat? Are they doing it just for fun? No one knows.

- 1** The story says that most raccoons live in
 - a** zoos.
 - b** the woods.
 - c** gardens.
- 2** During the day raccoons like to
 - a** wash.
 - b** sleep.
 - c** look for food.
- 3** At night raccoons like to
 - a** sleep.
 - b** look for food.
 - c** wash.
- 4** The story says that raccoons eat
 - a** fish.
 - b** rabbits.
 - c** chickens.
- 5** Before eating, raccoons sometimes put their food in
 - a** holes.
 - b** trees.
 - c** water.
